ABOUT ME

— [Web Portfolio] —

Aspiring Software Developer with a strong foundation in frontend development and a passion for building visually appealing and efficient applications.

- Proficient in JavaScript, Reactjs, and Nodejs
- Hands-on experience in developing responsive web applications through personal projects and academic work.
- Knowledgeable in working with RESTful APIs, NoSQL databases, and modern development tools like Git.
- Quick learner with strong problem-solving abilities and attention to detail.
- Experience collaborating in team environments using agile methodologies.
- Eager to contribute to dynamic development teams and grow professionally.

PROJECTS

Rotary Club Las Piñas Website

[Live Demo]

React.js, Tailwind CSS

- Developed a responsive website with dynamic features, including dropdown menus and a content carousel.
- Applied custom animations and optimized for performance and mobile compatibility.

Multi-vendor E-commerce Platform

MongoDB, Express, React, Node.js (MERN)

- Built a full-stack e-commerce platform with user authentication, product listings, and a shopping cart.
- Integrated MongoDB for data storage and RESTful APIs using Express and Node.js.
- Developed a responsive front-end with React, providing a smooth user experience across devices.
